Vision Metering offers the best remanufactured meters in the industry. Our *Vesta* test boards are verified every day to our 703A Radian Standard which is directly traceable through Radian Research to NIST. More than 30,000 meters move through our Meter Shop every month.

We have highly skilled testers at every station and supervisors with more than 26 years of experience. Our focus is on Accuracy and Aesthetics.

Meter testing data is presented with every meter in whatever application is easiest for our customers to have access.

The pictured meters represent only a few of our available remanufactured meters. Our stock is extensive and ever changing.

All of our Remanufactured Meters come with a 2 year Warranty.
